

Today, was the first time that I have been to the K-Love website. I have been listening to K-Lov for almost a year now. I routinely listen to k-love in the car.. this station has changed my lifestyle in so many ways. In the morning I get to listen to the word and feel so uplifted.. with K-love I am given the chance to do what GOD wants me to do and that is to listen to his word and feel the power of his word. Sunday is not enough, without K-love I won't be able to feel the power of GOD in the morning and as I end my day the way I do when I listen to the scripture on K-Love. Please for all of us Christians out there, don't remove this station. This station really has a positive outlook for our future. Children need to grow up listening to something inspirational rather than always listening to "today's hit music". For the sake of our children, let's keep getting the word of our creator... GOD the Almighty!!! Amen
